

The Multiple Sclerosis Society of Ireland (MS Ireland) is now seeking a Senior Physiotherapist to work on the Active Neuro Project in Dublin

Specific Purpose contract commencing 1st January 2023 for one year, 0.3WTE (equating to 10.5 hours) per week

The post will be based in MS Ireland's Care Centre on Bushy Park Rd, Dublin 6, with options for some remote working as possible.

The successful candidate will design, deliver and evaluate the specialised Active Neuro programme for people with MS and other neurological conditions. This programme provides opportunities for community based exercise and symptom management programmes both online and in person. This post is funded from the Strengthening Disabilities fund from the HSE

Candidates must be registered with CORU (or in the process of registration) Physiotherapy register. Membership of the Irish Society of Chartered Physiotherapists is desirable.

A minimum of 3 years post-graduate experience is essential, which must include a minimum of 1 year experience in neurology. Experience running group programmes and or tele-health is highly desirable.

Candidates must have excellent communication skills and be fluent in English.

For informal enquires, please contact Dr Susan Coote, 086 036 4109 or SusanC@ms-society.ie

To Apply: Please send letter of application outlining how you meet the essential and desirable criteria for this post, along with your CV to SusanC@ms-society.ie

MS Ireland is an equal opportunities employer.

Applications must be received on or before 5 p.m. on Friday 1st December 2023.

MS Ireland does not require the assistance of recruitment agencies at this time.
